Net income	30.8	29.4	+4.8

Consolidated financial highlights (IFRS results)

Revenues for the second quarter under review were ¥240.2 billion (an increase of 8.2% year on year), operating profit for the second quarter under review was ¥43.2 billion (an increase of 0.2% year on year), and net income for the second quarter under review was ¥30.8 billion (an increase of 4.8% year on year). These results include non-Core items, such as amortization of intangible assets of ¥0.8 billion, impairment of intangible assets of ¥1.8 billion, environmental expenses of ¥0.1 billion, and other items, which are excluded from the Core results that Chugai adopts to manage recurring business activities.

Consolidated financial highlights (Core results)

Revenues for the second quarter under review were ¥240.2 billion (an increase of 8.2% year on year) due to the strong growth in sales. Of revenues, sales excluding Tamiflu were ¥225.9 billion (an increase of 12.4% year on year), due to the steady growth of new products and major products. Meanwhile, royalties and other operating income were ¥7.5 billion (a decrease of 46.0% year on year) due to the year-on-year decrease in milestone income. As a result, gross profit amounted to ¥123.6 billion (an increase of 3.1% year on year). Marketing and distribution expenses were almost comparable to the levels of the same period of the previous fiscal year at ¥34.6 billion (an increase of 0.9% year on year) and research and development expenses were ¥37.3 billion (an increase of 1.9% year on year), due mainly to the depreciation of the yen. General and administration expenses were ¥5.8 billion (an increase of 11.5% year on year) due to the increase in expenditures including those associated with PR activities for the purpose of enhancing corporate brand recognition. As a result, Core operating profit was ¥45.9 billion (an increase of 5.0% year on year). Core net income was ¥32.5 billion (an increase of 9.1% year on year), due to the improvements in other financial income (expense) and the reduction of the tax burden ratio due mainly to the changes in the taxation system.

Note: Core results

Chugai discloses its results on a Core basis from 2013 in conjunction with its decision to apply IFRS. Core results are the results after adjusting non-Core items to IFRS results, and are consistent with the Core concept disclosed by Roche. Core results are used by Chugai as an internal performance indicator, for explaining the status of recurring profits both internally and externally, and as the basis for payment-by-results.

For further details regarding the adjustment to IFRS results, please refer to the Supplementary Materials on page 5, entitled “Reconciliation of IFRS results to Core results”.

Sales by product domain in billions of yen

	First six months of FY 2015.12 (Jan. 1, 2015–June 30, 2015)	First six months of FY 2014.12 (Jan. 1, 2014– June 30, 2014)	% change

Tamiflu sales	6.7	7.1	(5.6)
Ordinary use	6.7	7.0	(4.3)
Government stockpiles	0.0	0.1	(100.0)
Overseas sales	46.8	35.7	+31.1

Domestic sales (excluding Tamiflu)

Domestic sales excluding Tamiflu were ¥179.1 billion (an increase of 8.3% year on year).

Oncology products sales were ¥101.8 billion (an increase of 16.7% year on year). This increase was due to the steady expansion in sales of major drugs such as Perjeta (an anti-HER2 humanized monoclonal antibody, anti-cancer agent) and Avastin (an anti-VEGF humanized monoclonal antibody, anti-cancer agent). In addition, there was a contribution by the two new products launched in 2014, which are Kadcyra (an anti-HER2 antibody - tubulin polymerization inhibitor conjugate) launched in April 2014 and Alecensa (an ALK inhibitor, anti-cancer agent) launched in September 2014. Sales of Zelboraf (a BRAF inhibitor, anti-cancer agent) launched in February 2015 were ¥0.2 billion.

Bone and joint diseases products sales were ¥37.5 billion (an increase of 13.6% year on year), due to the strong sales of mainstay products such as Ediro1, a top brand in the domestic market of oral therapeutic agents for osteoporosis, Actemra (a humanized anti-IL-6 receptor monoclonal antibody) and Bonviva, a bisphosphonate antiresorptive agent.

Renal diseases product sales amounted to ¥21.4 billion (a decrease of 0.5% year on year), due to a decrease in the sales of Epogin (a recombinant human erythropoietin agent) resulting from the effects of the NHI drug price revisions in April 2014, offsetting the positive effect of solid sales of Mircera (a long-lasting erythropoiesis-stimulating agent).

In the area of transplant, immunology, and infectious diseases products (excluding Tamiflu), sales were ¥7.1 billion (a decrease of 33.0% year on year) due to a substantial decline in sales of Pegasys (a peginterferon- α -2a agent) and Copegus (an anti-viral agent), as a result of the new triple combination therapy for chronic hepatitis C having run its course and newly launched 3rd party products.

Tamiflu sales

Sales of Tamiflu (an anti-influenza agent) for ordinary use were ¥6.7 billion (a decrease of 4.3% year on year), while sales to government stockpiles etc. were less than ¥0.1 billion.

Overseas sales

Overseas sales amounted to ¥46.8 billion (an increase of 31.1% year on year), due mainly to an increase of Actemra exports to Roche in volume and the impact of the depreciation of the yen.

(2) Consolidated financial position**Assets, liabilities, and net assets** in billions of yen

	June 30, 2015	December 31, 2014	% change
Movements of assets and liabilities			
Net working capital	204.6	209.4	(2.3)
Long-term net operating assets	150.7	148.4	+1.5
Net operating assets (NOA)	355.3	357.7	(0.7)
Net cash	246.4	229.9	+7.2
Other non-operating assets - net	11.7	10.2	+14.7
Total net assets	613.4	597.8	+2.6
Consolidated balance sheet (IFRS basis)			
Total assets	744.3	739.5	+0.6
Total liabilities	(130.9)	(141.8)	(7.7)
Total net assets	613.4	597.8	+2.6

Net working capital at June 30, 2015 was ¥204.6 billion (a decrease of ¥4.8 billion since December 31, 2014). This was because a decrease in accounts receivable-trade of domestic sales and an increase in accounts payable-trade related to raw materials imported from Roche outweighed a decrease in accounts payable-other and an increase in inventories associated with the yen depreciation. Long-term net operating assets increased by ¥2.3 billion since the end of the previous fiscal year to ¥150.7 billion, due mainly to the purchase of buildings and equipment of the laboratories and plants. As a result, net operating assets (NOA) were ¥355.3 billion, ¥2.4 billion lower than at the end of the previous fiscal year.

As the table entitled “Cash flows” on the next page indicates, net cash, including marketable securities and interest-bearing debt, increased by ¥16.5 billion since December 31, 2014 to ¥246.4 billion. Also, other non-operating assets - net increased by ¥1.5 billion since the end of the previous fiscal year to ¥11.7 billion mainly due to a decrease in current income tax liabilities due to tax payment, offsetting a decrease in deferred tax assets resulting from a change in the tax rate and a decrease in foreign exchange contracts assets.

As a consequence, total net assets were ¥613.4 billion (an increase of ¥15.6 billion since December 31, 2014).

Note: Movements of assets and liabilities

The consolidated balance sheet has been prepared in accordance with the International Accounting Standards (IAS) No. 1, “Presentation of Financial Statements”. On the other hand, “Movements of assets and liabilities” including net operating assets (NOA) are a reconfiguration of the consolidated balance sheet as internal indicators and are identical to the indicators disclosed by Roche. Furthermore, no items from the assets and liabilities of IFRS have been excluded, as the Core results concept only applies to the income statement.

For further details, please refer to the Supplementary Materials on page 8, entitled “Movements of assets and liabilities”.

Cash flows in billions of yen

	First six months of FY 2015.12 (Jan. 1, 2015–June 30, 2015)	First six months of FY 2014.12 (Jan. 1, 2014–June 30, 2014)	% change
Movements of free cash flows			
Operating profit - IFRS basis	43.2	43.1	+0.2
Operating profit, net of operating cash adjustments	52.1	51.9	+0.4
Operating free cash flows	45.3	35.8	+26.5
Free cash flows	17.2	10.0	+72.0
Net change in net cash	16.5	9.2	+79.3
Consolidated statement of cash flows (IFRS basis)			
Cash flows from operating activities	46.7	33.0	+41.5
Cash flows from investing activities	(19.2)	(6.4)	+200.0
Cash flows from financing activities	(14.4)	(12.4)	+16.1
Net change in cash and cash equivalents	12.6	13.7	(8.0)
Cash and cash equivalents at June 30	126.6	128.8	(1.7)

Operating profit, net of operating cash adjustments, amounted to ¥52.1 billion. This is calculated by adjusting for depreciation and other items that are included in operating profit but are not accompanied by cash inflows or outflows and all inflows and outflows related to NOA that are not accompanied by profit and loss. The principal items influencing this result were a total of ¥6.9 billion in depreciation of property, plant and equipment.

Operating free cash flows, which are calculated by adding a decrease in net working capital of ¥7.0 billion and subtracting expenditures of ¥13.8 billion for the purchase of property, plant and equipment and intangible assets from operating profit, net of operating cash adjustments, amounted to a net inflow of ¥45.3 billion. Factors accounting for the change in net working capital are as shown on the previous page in the table entitled “Assets, liabilities, and net assets”. Purchases of property, plant and equipment were mainly expenditures for buildings and equipment of the laboratories and plants.

Free cash flows were a net cash inflow of ¥17.2 billion. This is calculated by subtracting a total of ¥28.1 billion of non-operating cash outflows from financial asset management, income taxes paid, and dividends paid from operating free cash flows.

As a result, the net change in net cash, after foreign currency translation adjustments, was an increase of ¥16.5 billion in comparison with the end of the previous fiscal year. The net change in cash and cash equivalents, excluding changes in marketable securities and interest-bearing debt, was a net cash inflow of ¥12.6 billion. The cash and cash equivalents balance at the end of this period amounted to ¥126.6 billion.

Note: Movements of free cash flows (FCF)

The consolidated statement of cash flows has been prepared in accordance with the International Accounting Standard (IAS) No. 7, “Statement of Cash Flows”. The FCF is a reconfiguration of the consolidated statement of cash flows as internal indicators and is identical to the indicators disclosed by Roche. Furthermore, no items from the FCF have been excluded, as the Core results concept only applies to the income statement.

For further details, please refer to the Supplementary Materials on page 9, entitled “Movements of free cash flows”.

(3) Forecast for consolidated performance

Chugai has not made any changes in its forecast of consolidated results for the fiscal year ending December 31, 2015 since the announcement regarding the forecast issued on January 28, 2015.

Note: In “1. Qualitative Information”, amounts less than ¥0.1 billion have been rounded to the nearest ¥0.1 billion. Figures for changes in amounts and percentages have been calculated using data denominated in ¥0.1 billion units.

(6) Notes regarding the interim condensed consolidated financial statements**General accounting principles and significant accounting policies****(a) Basis of preparation of the consolidated financial statements**

These financial statements are the interim condensed consolidated financial statements (“Interim Financial Statements”) of Chugai, a company registered in Japan, and its subsidiaries (“the Group”). The common stock of Chugai is publicly traded and listed on the Tokyo Stock Exchange under the stock code “TSE: 4519”. The Interim Financial Statements were approved by the Board of Directors on July 23, 2015.

Roche Holding Ltd. is a public company registered in Switzerland and the parent company of the Roche Group, which discloses its results in accordance with IFRS. The shareholding percentage of Roche Holding Ltd. in Chugai is 59.89% (61.42% of the total number of shares issued excluding treasury stock). The Group became principal members of the Roche Group after entering into a strategic alliance in October 2002.

The Group meets all of the requirements for a “Specified Company” as stipulated under Article 1-2 of the “Regulations Concerning Terminology, Forms, and Preparation Methods of Consolidated Financial Statements” (Ministry of Finance of Japan Regulation No. 28, 1976). Hence, in accordance with Article 93 of the “Ordinance on Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements” (Japanese Cabinet Ordinance No. 64, 2007), the Interim Financial Statements have been prepared in accordance with the International Accounting Standard (IAS) No. 34 “Interim Financial Reporting”.

The Interim Financial Statements should be used with the consolidated financial statements for the year ended December 31, 2014 as it does not include all the information as required for the consolidated financial statements for the full fiscal year.

The Interim Financial Statements are presented in Japanese yen, which is Chugai’s functional currency and amounts are rounded to the nearest ¥1 million. They have been prepared using the historical cost convention except for items that are required to be accounted for at fair value.

(b) Key accounting judgments, estimates and assumptions

The preparation of the Interim Financial Statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities, and contingent amounts. Actual outcomes could differ from those management estimates. The estimates and underlying assumptions are reviewed on an on-going basis and are based on historical experience and various other factors. Revisions to estimates are recognized in the period in which the estimate is revised.

The information for judgment, estimates, and assumptions that have a material impact on the amount recognized in the Interim Financial Statements of the Group is principally the same for the prior fiscal year.

(c) Significant accounting policies

The Group applies the same significant accounting policies that are used for the prior fiscal year’s consolidated financial statements to the Interim Financial Statements.
