An overview of corporate governance at CHUGAI PHARMACEUTICAL CO., LTD. is described below.

I Basic Policy Regarding Corporate Governance, and Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Policy

Under a strategic alliance with Roche, one of the world-leading pharmaceutical company, the Company has established “dedicate oneself to adding value by creating and delivering innovative products and services for the medical community and human health around the world” as its Mission and “become a top innovator for advanced and sustainable patient-centric healthcare, powered by our unique strength in science and technology and the alliance with Roche” as its Envisioned Future. Our basic management policy is to develop together with society.

While being a member of the Roche Group, Chugai maintains its managerial autonomy and independence as a publicly listed company and will constantly strive to perfect its corporate governance as established in “Chugai Pharmaceutical Co., Ltd. Basic Corporate Governance Policy,” in order to fulfil the mandate of its many stakeholders appropriately and fairly.

[Reasons for Not Implementing the Respective Principles of the Corporate Governance Code]

[Supplementary Principle 4-10-1 Establishment of independent advisory committees]

Although the Compensation Committee of Chugai Pharmaceutical is not comprised of a majority of independent outside directors, all four of the Committee members are non-executive directors, including at least two independent outside directors. In the deliberation by the Compensation Committee, if the deliberation by the Special Committee, as described in “4. Guideline regarding the measures for protecting minority stockholders in transaction, etc. with a controlling stockholder,” is considered appropriate by the member who also serves as the Special Committee, the Special Committee will deliberate and consider it, and report it to the Board of Directors.

CORPORATE GOVERNANCE

Therefore, in view of the purpose of the Corporate Governance Code, we believe that deliberations on remuneration are conducted with transparency and objectivity in the current structure.

[Disclosures in Accordance with the Respective Principles of the Corporate Governance Code]

[Principle 1-4 Policies regarding the holding of listed shares as strategic shareholdings and views on the exercise of voting rights]

In order to contribute to sustainable growth and the increase of corporate value over the mid- to long-term, Chugai will hold the shares of other companies only where it is judged necessary to do so, as part of its business strategy to maintain and strengthen business relationships, including with respect to the sale of pharmaceuticals and the like and with respect to financial transactions, etc., and will endeavor to reduce these strategic shareholdings to an appropriate level based on factors such as capital efficiency and risk-return considerations. We have sold all the 12 strategic shareholdings in 2015 and currently only hold one brand as of the end of 2022.

The Board of Directors will periodically examine the suitability of each individual strategic shareholding by specifically assessing matters such as whether the shareholding purpose is appropriate, the capital efficiency in relation to the shareholding, and the rationale of the relevant transactions; and the Board will disclose the details of that examination. In accordance with the policy, the Board of Directors will examine whether the shareholding purpose is appropriate, the rationale of the relevant transactions and the suitability of each individual strategic shareholding, etc. at the January Board of Directors meeting every year.

Chugai will exercise its voting rights with respect to shareholdings after comprehensively judging whether doing so will contribute to sustainable growth and the increase of corporate value over the mid- to long-term and contribute to the common interests of the shareholders of the other company, taking into consideration the voting guidelines of external proxy advisory firms, asset managers, and the like.

[Principle 1-7 Related party transactions]

Chugai will determine the appropriate authorizing organization or individual such as the Board of Directors for all transactions, including related party transactions, according to their importance and nature, and perform the procedures necessary to ensure their appropriateness. In dealings with our parent company, Roche Group, the Special Committee deliberates and reviews significant transactions and conducts, etc. that may generate a conflict of interests between the parent company Roche Group and minority shareholders.

Chugai will protect the interests of minority shareholders by executing any transactions with its parent company, the Roche Group, fairly and with equivalent conditions, including price, to a transaction with a third party.

All transactions between Chugai and its directors must have the prior approval of the Board of Directors in accordance with the Board Regulations in order to prevent conflict of interest. When such a transaction is executed, its material details must be reported to the Board of Directors and disclosed appropriately as required by law and ordinance.

[Supplementary Principle 2-4-1 Policies for ensuring diversity in the promotion of core human resources]

Chugai discloses its policies at “III 3. Measures to Respect the Position of Stakeholders” section.

[Principle 2-6 Corporate pension funds performing roles as asset owners]

Chugai has appropriately managed the corporate pension by means such as selecting and assigning personnel with the appropriate qualities, who has finance and accounting background, for managing corporate pension funds. Such relevant staff are provided with opportunities to acquire the necessary knowledge of pension systems and operations, and deepen their expertise through attending trainings and seminars offered by Pension Fund Association or operating agencies.

The Chugai Pharmaceutical Corporate Pension Fund conducts asset management in accordance with basic

CORPORATE GOVERNANCE

management policy. Asset Management Committee and Fiscal Management Committee have been established to monitor management status, etc.

The fund develops a structure in which conflicts of interest do not arise between pension fund beneficiaries and Chugai through outsourcing the operation of pension reserve to multiple operating agencies and allowing each asset manager to select which companies to invest in and to exercise voting rights at its own discretion.

<Policies and procedures for the designation of director candidates>

Director candidates are deliberated by the Appointment Committee and determined at a Board of Directors meeting.

For executive director candidates, the Board of Directors selects as director candidates individuals with the knowledge and experience to manage Chugai properly, fairly and efficiently, and sufficient public trust. The Board of Directors selects non-executive director candidates from among the managers of other companies, medical experts and others with academic experience, and similar persons, taking into account experience, knowledge, and expertise, so that the outside directors may appropriately give advice on the management of Chugai and carry out the supervisory function. In addition, at least 3 members, equivalent to more than one-third of Board of Directors are appointed as independent outside directors based on the Independence Standards noted in Attachment 2 of the "Chugai Pharmaceutical Co., Ltd. Basic Corporate Governance Policy."

If the Board of Directors determines that it is difficult to achieve sustainable growth and the increase of corporate value over the mid- to long-term (such as if Chugai continually fails to achieve business plans and performance is not expected to improve, or if material misconduct or a material compliance violation occurs), it will consider dismissing the executive directors, including the CEO. The appointment of director candidates and dismissal of directors shall be deliberated by the Nomination Committee and determined by the Board of Directors, and the reason for the appointment and dismissal shall be disclosed.

<Policies and procedures for the designation of Audit & Supervisory Board member candidates>

Candidates for Audit & Supervisory Board members are determined by the Board of Directors with the consent of the Audit & Supervisory Board. [Supplementary Principle 4-1-1 Overview of the scope of delegation to management]

Chugai adopts the executive officer system in order to separate managerial decision-making and supervision from the execution of business and work towards swifter executive decision-making. The Board of Directors conducts decision-making for important managerial decisions while delegating to the Executive Committee, which consists of executive directors and executive officers, the decision-making and execution of all business not determined by the Board of Directors itself.

[Principle 4-9 Independence standards for outside officers]

Taking into consideration the independence criteria set by the Tokyo Stock Exchange, Chugai has formulated independence standards aimed at ensuring effective independence of independent officers (independent outside directors and independent outside auditors), disclosing them in Attachment 2 of the “Chugai Pharmaceutical Co., Ltd. <https://www.chugai-pharm.co.jp/english/ir/governance/concept.html>

[Supplementary Principle 4-11-2 Concurrent appointment of directors and auditors as officers at other listed companies]

Chugai discloses each year any material concurrent positions held by its directors, auditors, and candidates in the “Notice of the General Meeting of Shareholders.” In addition, if a director or auditor is concurrently appointed as an officer or the like of a company other than Chugai, the “Chugai Pharmaceutical Co., Ltd. Basic Corporate Governance Policy” stipulates that it must be limited to the extent that said director or auditor remains able to carry out the role and responsibilities of a director or auditor of Chugai.

4. Guideline regarding the measures for protecting minority stockholders in transaction, etc. with a controlling stockholder

The Special Committee deliberates and reviews significant transactions and conducts, etc. that may generate a conflict of interests between the parent company Roche Group and minority shareholders. The Special Committee consists of three or more members consisting of only independent outside directors and independent outside corporate auditors, including one independent outside director who also serves as a member of the Compensation Committee. The members are appointed by the Board of Directors. The current members are Dr. Fumio Tateishi, an independent outside director, Hideo Teramoto, an independent outside director, Kenichi Masuda, an independent outside corporate auditor. It is chaired by Hideo Teramoto, selected by mutual election of each committee member.

5. Other Exceptional Circumstances that Might Have a Material Impact on Corporate Governance

In December 2001, Chugai and Roche Holding Ltd. [Head Office: Switzerland] entered into a basic agreement on a strategic alliance. Roche owns 59.89% of the total issued shares of Chugai and is the parent company. In accordance with the alliance, Chugai has become Roche's single pharmaceutical company in the Japanese market, and has the right of first refusal on the development and marketing in Japan of all development compounds advanced by Roche. Moreover, Roche has the right of first refusal on the development and marketing of all development compounds advanced by Chugai in markets outside Japan, excluding South Korea and Taiwan.

The aim of this alliance is to establish a new business model that differs from conventional practices in corporate acquisitions and the formation of joint ventures. Although Roche Holding includes Chugai in its consolidated accounts, Chugai functions as an independent listed company and makes all of its own management decisions based on the principles of self-governance. In addition, regarding the purchase and sale of Chugai stocks by Roche, the two companies have entered into arrangements to maintain the listing of Chugai shares since 10 years after the merger (on or after October 1, 2012).

Out of the nine directors of Chugai, two directors are on the roles of the Roche Group. However, these members do not make up the majority of management, and thus Chugai recognizes that its management independence is ensured. Moreover, from the standpoint of further enhancement of the independence and objectivity of management, Chugai has in place three independent outside directors.

3. Reason for Adopting the Current Cooperate Governance System

Chugai adopted "Company with an Audit & Supervisory Board" as its corporate organizational structure under the Companies Act in order to ensure effective oversight of directors from an independent and objective standpoint. IV Basic Policy and Status of Implementation of the Internal Control System

1. Basic Policy and Status of Implementation of the Internal Control System

With the mission “to dedicate itself to adding exceptional value through the creation of innovative medical products and services for the benefit of the medical community and human health around the world,” Chugai has pursued transparent, fair and highly ethical corporate activities. Moreover, accompanying the enforcement of the Corporate Law, we adopted resolutions at the meeting of Board of Directors on basic policies concerning internal controls, and have built a robust system to ensure that the execution of duties by all executives and employees in the Chugai Group is in compliance with laws, regulations and the Articles of Incorporation.

Specific preparations and operational status of the internal controls system of the Company are as follows: In order to ensure compliance of business operations executed by directors and employees with laws and articles of incorporation, directors and employees shall comply with the “Chugai Group Code of Conduct (CCC),” and the Company has set the Risk & Compliance Department to be in charge of the Company’s compliance with laws and other relevant rules.

In addition to the auditing activities of the Audit & Supervisory Board Members, conducted in accordance with the Corporation Law, Chugai has also established the Audit Department, having members of certified internal auditors and certified fraud examiners, as an internal audit section for the vigilance and inspection of the internal control activities of each department. The Audit Department conducts audits of the status of business execution of the Chugai Group, including subsidiaries, from various standpoints, such as the effectiveness, efficiency and compliance of business activities; reports and makes recommendations to the Executive Committee; and reports to the Board of Directors and Audit & Supervisory Board. Thus, Chugai is striving to maintain and improve the execution of sound business operations. In addition, the Audit Department staff serve as Audit & Supervisory members at subsidiaries. Furthermore, the Audit Department assesses whether effective internal controls are established and being implemented in accordance with internal control standards generally accepted as fair and appropriate in Japan to ensure the reliability of financial reporting based on the Financial Instruments and Exchange Act.

For promotion of compliance, the Company established the Compliance Regulations in accordance with the Compliance Policy. The Compliance Committee has been also established as a subordinate body of the Executive Committee in order to respond to all aspects of compliance related to our company, including pharmaceutical regulations, general laws and regulations, industry standards, and Company rules. The Compliance Committee deliberates important policies and measures related to the promotion of compliance at our group, as well as compliance risk evaluation and risk management policies, and reports the progress to the Executive Committee. With monitoring, guidance, and support from the Compliance oversight functions (Risk & Compliance department, Quality & Regulatory Compliance Unit), the Company reports and consults on compliance in a timely manner and monitors compliance on a regular basis through the Compliance Officers assigned to each organization. In addition, the Company has established a contact desk for reporting and consulting on issues related to violations of the CCC and a counseling desk on harassment both inside and outside the Company. In this way, the Company is working to identify problems early and take appropriate measures.

For risk management, the Company is working to foster a healthy risk culture based on the risk appetite statement, which has formulated as a risk preference policy. In order to ensure risk response measures and prompt and appropriate responses in the event of an incident, the Company has also established the Risk Management Regulations based on its Risk Management Policy, and the Risk Management Committee, a sub-organization of the Executive Committee, and the Division Risk Management Committee have been formed. The Risk Management Committee has identified Chugai Pharmaceutical Group-wide risk issues that may have a material impact on management of the Company and reports the progress of countermeasures to the Executive Committee. The Division Risk Management Committee compiles risks within the division, prepares a risk map, makes efforts to deal with risks, and reports the progress of countermeasures for important risks to the Risk Management Committee.

CORPORATE GOVERNANCE

Moreover, when an emergency occurs that have a material impact on the corporate activities of the Chugai Group, it has been determined that an emergency headquarters, with the Representative Director as the General Manager, will be formed to handle countermeasures.

We are currently using the experience of the Great East Japan Earthquake to strengthen earthquake response measures in preparation for potential major earthquakes in Japan in the future.

Chugai carries out Group-wide efforts for internal controls and risk management, and strives for proper business management as an overall corporate group.

2. Basic Policy and Status of eliminating any relationships with antisocial forces and groups

The internal structure for eliminating any relationships with antisocial forces and groups is included in The Resolutions concerning the Internal Control System by the Board of Directors.

The Company clearly states in the CCC, the code of conduct, that Chugai will eliminate any relationships with antisocial forces and groups, addressing this issue by the Company as a whole.

The Company has established a structure to set up and operate an internal contact point for inquiries regarding antisocial forces, to conduct credit research of outside parties when signing new contracts, and to cooperate with relevant parties including the authorities.

The Company has established guidelines for concluding a Memorandum Regarding Exclusion of Antisocial Forces and signs the Memorandum with business partners to confirm that they are not related to antisocial forces and to enable Chugai to terminate any contract immediately if a relation of a business partner with antisocial forces becomes evident.
