all for the patients

FOR IMMEDIATE RELEASE

January 16, 2017

Eisai Co., Ltd.
Chugai Pharmaceutical Co., Ltd.

**TRANSFER OF RIGHTS TO INSOMNIA TREATMENT / ANAESTHESIA INDUCTION AGENT
FLUNITRAZEPAM IN JAPAN**

[Eisai Co., Ltd.](#) (Headquarters: Tokyo, CEO: Haruo Naito, “Eisai”) and [Chugai Pharmaceutical Co., Ltd.](#) (Headquarters: Tokyo, Chairman & CEO: Osamu Nagayama, “Chugai”) announced today that Eisai’s acquisition of the rights for manufacturing active pharmaceutical ingredients (API) for Japan from [F. Hoffman-La Roche Ltd.](#) (Headquarters: Basel, Switzerland, CEO: Severin Schwan, “Roche”) for the insomnia treatment / anaesthesia induction agent flunitrazepam (Eisai product name: Silece®, Chugai product name: Rohypnol®) as well as the marketing authorization held by Chugai for Rohypnol in Japan has been agreed upon by the three companies, and this contract has come into effect.

Under this agreement, Eisai acquires the rights to manufacture API as well as intellectual property for flunitrazepam in Japan from Chugai and Roche. Chugai and Roche are entitled to receive a one-time payment based on this agreement. The transfer of the marketing authorization as well as the transition of marketing activities for Rohypnol from Chugai to Eisai are scheduled to take effect on April 1, 2017.

Developed by Roche, flunitrazepam is a benzodiazepine-type compound that is indicated for insomnia and preanaesthesia treatment in oral tablet form, and for the introduction of general anaesthetic and tranquilizer for local anaesthesia in injectable form. For Japan, Eisai and Chugai have formulated the products using flunitrazepam API supplied by Roche and marketed under the brands Silece and Rohypnol, respectively. With this transfer, manufacturing and marketing of flunitrazepam as the original drug will be solely conducted by Eisai.

Eisai and Chugai will cooperate to ensure the smooth transfer of API manufacturing rights for flunitrazepam as well as marketing authorization and marketing activities for Rohypnol.

<Notes to editors>

1. About Rohypnol® (flunitrazepam)

1) Insomnia treatment Rohypnol® Tablet 1, Rohypnol® Tablet 2

[Indications for use]

Insomnia, preanaesthetic medication

[Dosage and administration]

The usual adult dose is 0.5 mg to 2 mg of flunitrazepam taken once orally before bed or prior to surgery.

The dosage should be increased or decreased appropriately depending on age and symptoms, and should be no more than 1 mg per dose for elderly patients.

2) Anaesthetic induction agent Rohypnol® 2 mg for Injection

[Indications for use]

Introduction of general anaesthetic, tranquilizer for local anaesthesia

[Dosage and administration]

At time of administration, the agent should be diluted with over twice as much solution for injection and should be gently injected (over 1 minute for 1 mg of flunitrazepam) intravenously.

The usual adult dose is 0.02 to 0.03 mg of flunitrazepam per 1 kg of body weight as introduction of general anaesthetic, and 0.01 to 0.03 mg of flunitrazepam per 1 kg of body weight as tranquilizer for local anaesthesia. If necessary, an additional equal or half dose can be administered.

The dosage should be increased or decreased appropriately according to factors including patients' age, sensitivity, overall condition, method of surgery and method of anaesthesia.

2. About Eisai

Eisai Co., Ltd. is a leading global research and development-based pharmaceutical company headquartered in Japan. We define our corporate mission as “giving first thought to patients and their families and to increasing the benefits health care provides,” which we call our *human health care (hhc)* philosophy. With approximately 10,000 employees working across our global network of R&D facilities, manufacturing sites and marketing subsidiaries, we strive to realize our *hhc* philosophy by delivering innovative products to address unmet medical needs, with a particular focus in our strategic areas of Oncology and Neurology.

As a global pharmaceutical company, our mission extends to patients around the world through our investment and participation in partnership-based initiatives to improve access to medicines in developing and emerging countries.
