Humanitarian Donation for Ukraine

The serious humanitarian crisis in Ukraine is putting the precious lives of many people including children at risk.

As a member of an industry associated with human life, [Chugai Pharmaceutical Co., Ltd.](#) is deeply concerned about the current situation for people in Ukraine and those who have been displaced in surrounding countries. Given the situation, Chugai decided to donate one hundred million Japanese yen through an international organization as humanitarian aid. We will also raise donations from employees.

Our thoughts are with the people in Ukraine. Chugai hopes that peace and security will return to the region as soon as possible.
